

Dear All,

Introducing the ASUS **M4A79XTD EVO** motherboard.

The M4A79XTD EVO motherboard features AMD 790X/SB750 chipset. With DDR3 Dual channel architecture memory supports up to 1800 MHz unleashes system performance. ASUS new generation **8+2 Phase Power Design** supports AMD **45nm AM3 CPUs** with stable and tremendous overclocking capability. ASUS real-time overclocking features **TurboV and Turbo Key** level up system performance in a fast and convenient way. **ASUS Anti-surge Protection** provides extra security against over-voltage damage. **ASUS EPU** dynamically regulates system energy saving. Unique ASUS **Express Gate** offers fast and easy access to internet, online chat, and photo browsing without entering the main OS. Furthermore, **ASUS Q-slot Design** simplifies and speeds up your DIY experience.

[Motherboard – M4A79XTD EVO]

< Product Specification Summary >

- ✓ **AMD® Socket AM3 for Phenom™ II/Athlon™ II/ Sempron™ 100 Series Processors**
- ✓ **Up to 5200 MT/s HyperTransport™ 3.0**
- ✓ **AMD 790X/SB750 Chipset**
- ✓ **2 PCIe 2.0 X16 slots with ATI CrossFireX™ support (@ single X16 or dual X8)**
- ✓ **4 x DIMM, max. 16GB, DDR3 1800*/1600/1333/1066 MHz memory**
- ✓ **6 SATA 2.0 support RAID 0, 1, 5, 10, and JBOD + 1 eSATA 2.0**
- ✓ **1 Gb LAN**
- ✓ **8-channel High Definition Audio CODEC**

< Highlighted Key Features >

- **ASUS New 8+2 Phase Power for AM3 –
Best performance and power efficiency with supreme overclocking stability**

- **ASUS TurboV & Turbo Key for Easy O.C. –
Simple and Real-Time O.C. tuning in OS environment; one button levels up the system performance**

- **ASUS Anti-surge Protection –
Additional defense for over-voltage damage**

- **ASUS Q-Slots –
DIY quickly, DIY easily!**

- **Extreme Silent Thermal Solution –
Cool and Quiet!**

< ASUS Unique features >

- **ASUS New-Gen. 8+2 Phase Power Design**
- **ASUS Anti-Surge Protection**
- **ASUS EPU**
- **ASUS Turbo V**
- **ASUS Turbo Key**
