Advanced Video Technologies for Exceptional Visuals

- **ASCR with 20000:1 Contrast Ratio**
ASCR (ASUS Smart Contrast Ratio) Technology automatically adjusts the luminance of the backlight for better display according to the image contents, and improves the contrast ratio to 20000:1, which can dynamically adjust contrast between black and white to provide sharper and brighter images resulting in more realistic depictions of night scenes especially during games and movies.

- **Display 4:3 Contents Perfectly on Widescreen**
Aspect control function enables 4:3 contents without image distortion on the widescreen.

- **Intelligent Image Enhancement with Splendid Technology**
Splendid(tm) Video Intelligence Technology adopts a color engine to detect activation and usage of video applications and automatically optimizes image quality with intelligent color, brightness, contrast and sharpness corrections for the best visual results. The Splendid(tm) offers 5 video modes designed for scenery, theater, gaming, night view, and standard images, 3 skin tones of yellowish, natural and reddish to add a human touch to videos on PC. You can see optimized images on screen and select five modes via hotkey quickly at your will.

- **Stylish and User-friendly Design for Modern Sophistication**
 - * Glare black frame and smooth base design create a fresh new look of LCD monitors.
 - * Convenient key controls for functional set-up in the multi-language OSD.
 - * Cable manager gets rid of tangling cables and wires.
 - * VESA Wall Mount Standard (100 x 100 mm).
 - * 25° (forward 5° , backwards 20°)Tilting Angle.
 - * KENSINGTON Security Lock.

- **Complete After-Sale Service**
 - * 3-year system warranty
 - * 3-year panel warranty

Perfect imaging all from ASUS

ASUS SPLENDID™ is The Secret for Vibrant Image Display

The exclusive SPLENDID™ Video Intelligence Technology from ASUS optimizes overall display for the best results in image preview, movie playback and gaming.

Scenery Mode

Contrast / brightness enhancement provides vivid, lifelike images.

Theater Mode

Splendid™ optimizes sharpness, contrast, and color for vibrant viewing during playback.

Game Mode

Satisfies gamers with unparalleled color saturation and details for a realistic gaming experience.

Night View Mode

Just activate night mode to bring out image details in scenes with limited light source as in the movies and games.

3 preset skin tone

SPLendid™ provides three skin tones - natural, reddish, and yellowish - to that users can choose to apply the characters in display for different graphic applications
